Re: Sole Source Certificate for ECT Air Temperature sensor

To Whom It May Concern:

This is to certify that METER Group, Inc., a company based in Pullman, WA, is the sole manufacturer of the ECT sensor and compatible data loggers.

The ECT sensor was designed for continuous monitoring of air temperature when connected to a compatible data acquisition system. Temperature is measured using a thermistor. This sensor is compatible with the ZL6, ZENTRA or EM50-60 data loggers.

Each sensor output is verified at our facility before it is shipped. The ECT sensor is manufactured at METER Group's facility in Pullman, Washington and sold directly to the end-user (as well as to domestic irrigation management representatives and international distributors). The product has a one-year warranty that covers all necessary maintenance or repair, an attempt at sensor maintenance outside of METER will void this warranty.

Any comments or questions regarding this document can be brought to my attention.

Sincerely,

Chris Chambers
