Re: Sole Source Certificate for G3 Drain Gauge

To Whom It May Concern:

This is to certify that METER Group, Inc., a company based in Pullman, WA, is the sole manufacturer of the G3 Drain Gauge Passive Lysimeter and its compatible sensor the CTD+DG.

The G3 was designed with a fiberglass wick, divergence control tube, and a ceramic pressure transducer sensor for measuring deep drainage. There are no other known instruments available on the market that use passive capillary technology to measure deep drainage.

Each Lysimeter output is verified at our facility before it is shipped. The G3 Drain Gauge is manufactured at METER Group's facility in Pullman, Washington and sold directly to the end-user (as well as to domestic irrigation management representatives and international distributors). The product has a one-year warranty that covers all necessary maintenance or repair, an attempt at sensor maintenance outside of METER will void this warranty.

Any comments or questions regarding this document can be brought to my attention.

Sincerely,

Shaun Weldon
