Re: Sole Source Certificate for PARIO Plus

To Whom It May Concern:

This is to certify that METER Group, Inc., a company based in Pullman, WA, is the sole distributor of the PARIO Plus within the US. The PARIO Plus is manufactured at METER Group's facility in Munich, Germany.

The PARIO calculates the particle size distribution by Stokes' law, with a range spanning from 63 μm to 2 μm , creating a complete particle size distribution curve. It is an unattended and automated measurement that avoids the manual process of hydrometer or pipette methods of particle size analysis. It is powered and operated by a USB connection to a computer running the PARIO Control software (included with the purchase).

Each sensor output is verified at our facility in Munich before it is shipped. The product has a one-year warranty against manufacturing defects.

Any comments or questions regarding this document can be brought to my attention.

Sincerely,

Shaun Weldon
