Re: Sole Source Certificate for PS-1 Irrigation Pressure Switch

To Whom It May Concern:

This is to certify that METER Group, Inc., a company based in Pullman, WA, is the sole manufacturer of the PS-1 pressure switch and compatible data loggers.

The PS-1 switch adds water on/off data into a soil moisture data set. On/off data is a critical parameter to add to your system when using soil moisture sensors to monitor irrigation because it enables you to know your irrigation times. This sensor is compatible with ZENTRA or EM50-60 data loggers, or able to be integrated with compatible third-party data loggers.

Each sensor output is verified at our facility before it is shipped. The PS-1 pressure switch is manufactured at METER Group's facility in Pullman, Washington and sold directly to the end-user (as well as to domestic irrigation management representatives and international distributors). The product has a one-year warranty that covers all necessary maintenance or repair, an attempt at sensor maintenance outside of METER will void this warranty.

Any comments or questions regarding this document can be brought to my attention.

Sincerely,

Shaun Weldon
